Foreword

Acknowledgments

I. Overview

1. Introduction
 - 1.1 Background
 - 1.2 Research Purpose, Scope, and Approach
2. Internal Auditing and the Environment
 - 2.1 Definition
 - 2.2 Environment
3. The IA-CM in Summary
 - 3.1 What is the Public Sector IA-CM?
 - 3.2 The Structure of the IA-CM
 - 3.2.1 Capability Levels
 - 3.2.2 Elements of Internal Auditing
 - 3.2.3 IA-CM One-page Matrix
 - 3.2.4 What is a Key Process Area (KPA)?
 - 3.2.5 Achieving a Capability Level
 - 3.2.6 Common Features
 - 3.3 Key Process Areas by Internal Audit Element
4. Selected Bibliography and Resource Links

II. Application Guide — The IA-CM in Detail

1. Introduction
2. The IA-CM in Detail
 - 2.1 The IA-CM One-page Matrix
 - 2.2 The Elements of Internal Auditing
 - 2.2.1 Services and Role of Internal Auditing
 - 2.2.2 People Management
 - 2.2.3 Professional Practices
 - 2.2.4 Performance Management and Accountability
 - 2.2.5 Organizational Relationships and Culture
 - 2.2.6 Governance Structures
 - 2.3 The Capability Levels
 - 2.3.1 Level 1 - Initial
 - 2.3.2 Level 2 – Infrastructure
 - 2.3.3 Level 3 – Integrated
 - 2.3.4 Level 4 – Managed
 - 2.3.5 Level 5 – Optimizing
3. Applying and Interpreting the IA-CM
 - 3.1 Principles in Applying the IA-CM
 - 3.2 Environmental and Organizational Factors
 - 3.3 Capability Level Issues

- 3.3.1 Is Level 3 Sufficient for an IA Activity?
 - 3.3.2 Why and When to Aspire to Level 4 or Level 5?
 - 3.3.3 Can Capability Levels Be Skipped?
 - 3.3.4 Can KPAs Be Ignored?
 - 3.3.5 Must All Elements Be at the Same Capability Level?
 - 3.4 The IA-CM and a Quality Assurance and Improvement Program
4. Detailed Key Process Areas
- Services and Role of Internal Auditing
 - Level 2 – Infrastructure
 - Compliance Auditing
 - Level 3 – Integrated
 - Performance/Value-for-Money Audits
 - Advisory Services
 - Level 4 – Managed
 - Overall Assurance on Governance, Risk Management, and Control
 - Level 5 – Optimizing
 - Internal Auditing Recognized as Key Agent of Change
 - People Management
 - Level 2 – Infrastructure
 - Skilled People Identified and Recruited
 - Individual Professional Development
 - Level 3 – Integrated
 - Workforce Coordination
 - Professionally Qualified Staff
 - Team Building and Competency
 - Level 4 – Managed
 - Workforce Planning
 - IA Activity Supports Professional Bodies
 - Internal Auditing Contributes to Management Development
 - Level 5 – Optimizing
 - Workforce Projection
 - Leadership Involvement with Professional Bodies
 - Professional Practices
 - Level 2 – Infrastructure
 - Audit Plan Based on Management/Stakeholder Priorities
 - Professional Practices and Processes Framework
 - Level 3 – Integrated
 - Risk-based Audit Plans
 - Quality Management Framework
 - Level 4 – Managed
 - Audit Strategy Leverages Organization’s Management of Risk
 - Level 5 – Optimizing
 - Strategic Internal Audit Planning
 - Continuous Improvement in Professional Practices
 - Performance Management and Accountability
 - Level 2 – Infrastructure
 - Internal Audit Business Plan
 - Internal Audit Operating Budget

- Level 3 – Integrated
 - Internal Audit Management Reports
 - Cost Information
 - Performance Measures
- Level 4 – Managed
 - Integration of Qualitative and Quantitative Performance Measures
- Level 5 – Optimizing
 - Public Reporting of Internal Audit Effectiveness
- Organizational Relationships and Culture
 - Level 2 – Infrastructure
 - Managing within the IA Activity
 - Level 3 – Integrated
 - Integral Component of Management Team
 - Coordination with Other Review Groups
 - Level 4 – Managed
 - CAE Advises and Influences Top-level Management
 - Level 5 – Optimizing
 - Effective and Ongoing Relationships
- Governance Structures
 - Level 2 – Infrastructure
 - Reporting Relationships Established
 - Full Access to the Organization’s Information, Assets, and People
 - Level 3 – Integrated
 - Funding Mechanisms
 - Management Oversight of the IA Activity
 - Level 4 – Managed
 - CAE Reports to Top-level Authority
 - Independent Oversight of the IA Activity
 - Level 5 – Optimizing
 - Independence, Power, and Authority of the IA Activity

Annex A – On-site Validations

1. Methodology
2. IA-CM Validations and Participants
3. Evolving/Best-practice Examples Identified
 - Governance Structures
 - Organizational Relationships and Culture
 - Performance Management and Accountability
 - Professional Practices
 - People Management
 - Services and Role of Internal Auditing

Annex B – Using the IA-CM as a Self-assessment Tool

- Steps to Follow
- Generic Presentation

List of Exhibits

- Exhibit I.1: IA-CM Levels
- Exhibit I.2: Descriptions of the Capability Levels
- Exhibit I.3: Elements of Internal Auditing
- Exhibit I.4: Descriptions of the Elements of Internal Auditing
- Exhibit I.5: Internal Audit Capability Model Matrix
- Exhibit I.6: Mastering a KPA
- Exhibit I.7: Institutionalizing a KPA
- Exhibit I.8: Purposes of KPAs by Internal Audit Element
- Exhibit II.1: Internal Audit Capability Model Matrix
- Exhibit II.2: Elements of Internal Auditing
- Exhibit II.3: IA-CM Levels
- Exhibit II.4: Purposes of the KPAs at Level 2 – Infrastructure
- Exhibit II.5: Purposes of the KPAs at Level 3 – Integrated
- Exhibit II.6: Purposes of the KPAs at Level 4 – Managed
- Exhibit II.7: Purposes of the KPAs at Level 5 – Optimizing
- Exhibit II.8: Excerpts from Standards 1300 – 1312
- Exhibit II.9: Key Process Area
- Exhibit A.1: IA-CM Validation Sessions with IA Activities
- Exhibit A.2: Other IA-CM Validation Input
- Exhibit A.3: Croatia — Internal Audit Legal Framework
